

**GUAHAN ANCESTRAL LANDS COMMISSION**  
**RECORD OF MOTION** (revised 2/14/2018)  
**BY THE BOARD OF COMMISSIONERS**

<input checked="" type="checkbox"/> Regular Meeting	Date: <u>March 28, 2018</u>	<input type="checkbox"/> Special Meeting/Re-hearing	Date: _____
<input type="checkbox"/> Title Hearing	Date: _____	<input type="checkbox"/> Work Session	Date: _____

**Agenda Item:**

**Item III. Approval of ROM'S**

A. Record of Motion February 14, 2018.

B. Record of Motion March 14, 2018.

there were no motions made for the Approval of Rom's because the commissioners wanted a synopsis of all the motions and the form was incomplete and was agreed that its should attach the agenda and bullet point of discussion that was made at the meeting.

**Item IV. Old Business**

A. Rules & Regulations recommendation to legislature.

- Commissioners are focusing in the opinion of the AG after they reviewed the draft of the Rules & Regulation that was submitted & so they're not going to have another public meeting.

Toft – says that their looking at deleting that part was said beyond our powers or recommending that somme kind f legislation be made to include it or revise it. That's the ground rules?

- The AG'S comments that defining extinguishment & defining eligibility was something that we can't define in the Rules but it has to be defined legislatively. Toft – says commissioners need to go over the 2 primary issues & possibly come to some sort of agreement & something to send to the legislature to get the ball rolling on the issue. The 2 primary issues are definition of the beneficiary in the eligibility rules that apply to that. and the second is the claims processing and extinguishment issue. The other issues, the Impact Statement. The commission is recommending that the extinguishment only triggers in upon on the receive of their family's land. They are all in agreement & wishes to have beneficiaries to include both classes.

- Commissioners are going to recommend that 80104E be expedited to say local or federal government.

- Public Law 25-45 describes the two parts of disposes land owners. Released properties are always excess but the definition of the beneficiary were going to ask to revise 801040 and say local or federal.

- The claims process and extinguishment first if you claim you have to qualify yourself as Ancestral land owner. There's a seven-part packet created by the commission prior to us that the claimant has to follow through it.

as per Atty. Nick says that the commissioners have the option to amend the law.

- Extinguishment talks about just compensation Just compensation for the purpose of this chapter.

**GUAHAN ANCESTRAL LANDS COMMISSION**  
**RECORD OF MOTION** (revised 2/14/2018)  
**BY THE BOARD OF COMMISSIONERS**

- Commissioners wishes to put forward the idea of perpetual payments & elimination of exting uishments. Or just compensation other than their return of their original land.

There we're no motions made on the discussion of this meeting.

**MOTION:** Orlino – "I Motion to adjourn."
